Release Notes: Version 1.0.186.0

Date: 23 June 2011.

Issue:	**Unable to Save. The server could not be contacted**
Tracking url:	Internal (email)
Comment:	When you try to add a new user or super user via the setting screen you will receive the above error for domain accounts. A bug is been identified and fixed in this release.

Issue:	**BAM Portal error when the activity column doesn't have an alias.**
Tracking url:	http://getsatisfaction.com/biztalk360/topics/bam_portal_on_views_excbyapplication_en_excall_throws_an_error
Comment:	Another bug was identified related to this issue. The one fixed on 1.0.185 was a red herring and didn't actually fix the issue correctly.
